PROJECT

My portfolio website
- This project related to My Education and Skill and . Its for easily understanding my Knowledge and programming skill. This is single page Application i have done this project Using css ,Html and java script .I have used here high level front-end design. Project is fully done

World Tour website
- This project related to Tourists Guide. we will guide in which places is better for which season around the world .And our helpline is 24 /7 available for Tourist. This is single page Application only focus on frontend. Using css ,Html and React.js and backend.I am going to build a responsive website . But the project is not quite complete I am working on it. And some portion of the work I have already done. The demo is,- **https://vedupd.csb.app/Home**

E-commers Design
- Only focus on Front - end part. Best design ever .Like real website. demo is, - **https://sohellkkhan.github.io/ApnaDukan_Ecommers/**

SKILLS

SQL Server   Java Programming   Html

CSS   DATA structures   JavaScript   React
